1. Introduction

1.1. Objective

The Objective of this document is to explain and Guide the user to familiarize the usage of EI web Application.

1.2. Scope

Explain in details about EI Application & its Functionalities.

In addition, explains how to navigate thru web menu.

- Login, Usage of Menu& Functionalities
- Do’s and Don’t

1.3. Terminology

Acronym	Definition
GPS	Global Positioning System
Offline	Device is not connected with Internet
SU	Service User
CRW	Community Rehabilitation Workers

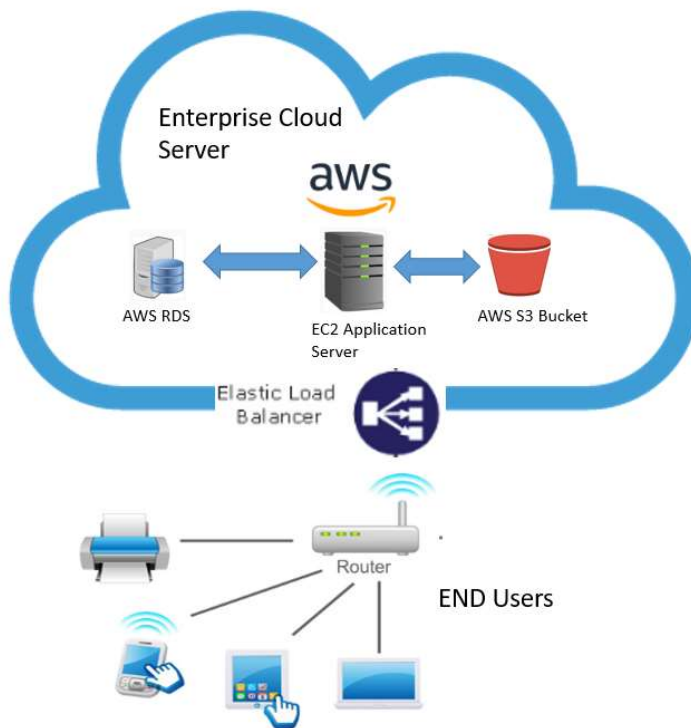

2. Pre Requisites

Minimum Hardware& SoftwareRecommendation:

OS	Windows 10
Browser	 Google Chrome <hr/>  Google Chrome is up to date Version 80.0.3987.87 (Official Build) (64-bit)
Resolution	1080 x 1920 pixels
Other Features	Responsive

3. Application Architecture

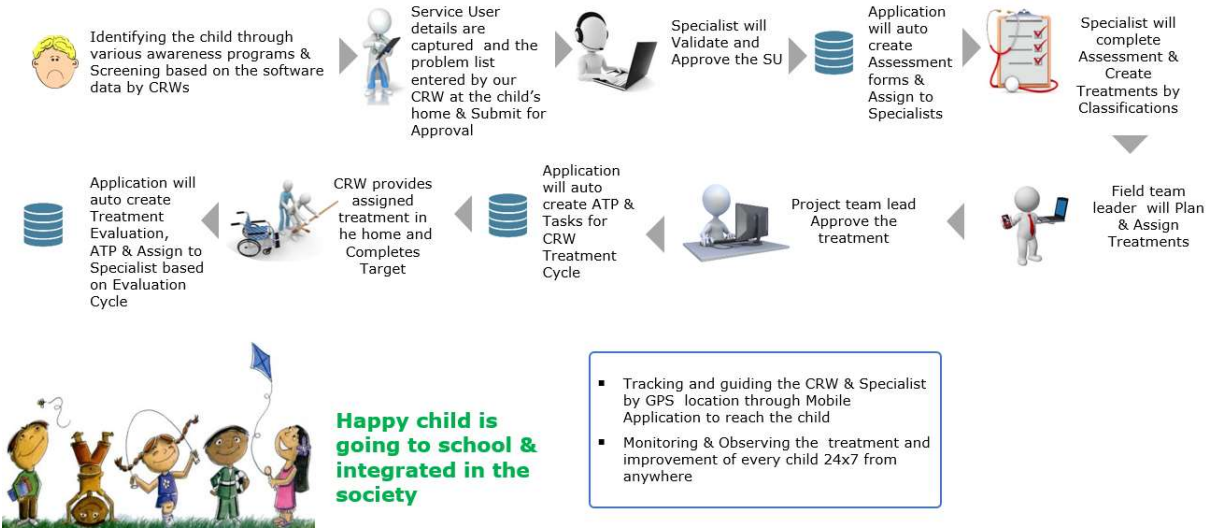

EI Application which is a web application hosted on Cloud Servers and a stand-alone Offline/online Mobile App.

Web Application & Database Hosted on AWS Servers.

Mobile App is a hybrid Android application which is stand-alone app where users can use the app both Offline and Online get connected to cloud server and Sync Data

4. Application Process Flow

4.1. Login

Once we are in login page, enter the user name and password for the environment.

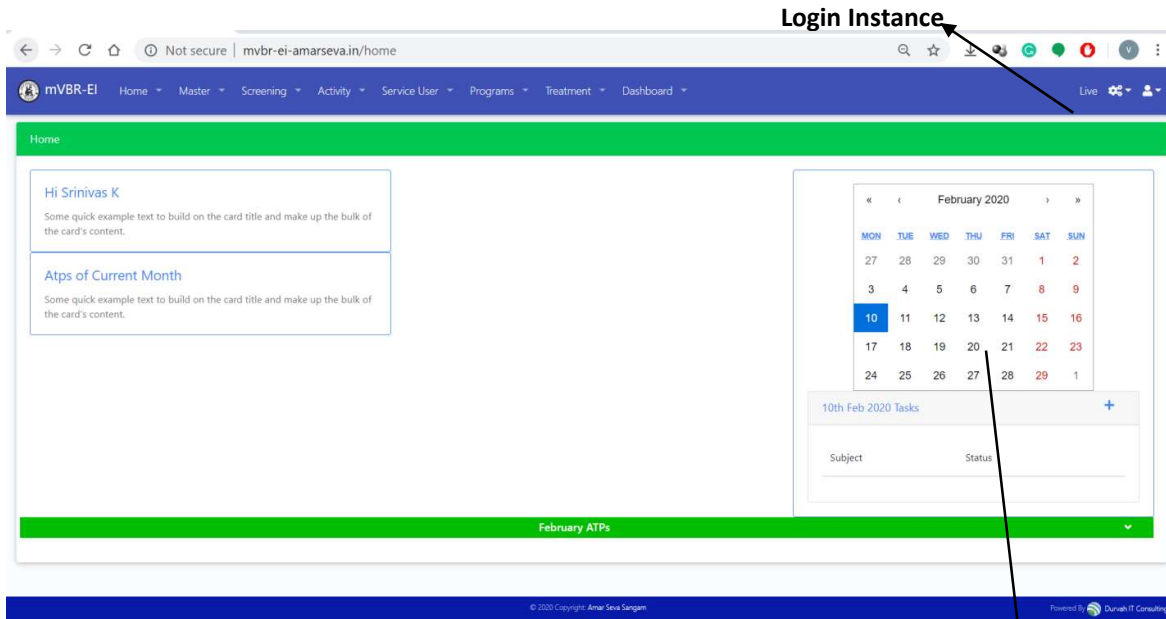

The login form contains the following elements:

- A circular logo at the top center with the text "AMAR SEVA SANGAM" and "AVIRUDU" around a central figure.
- A text input field labeled "User Name".
- A text input field labeled "Password".
- A blue button labeled "LOGIN".
- A link labeled "Forget Password?".

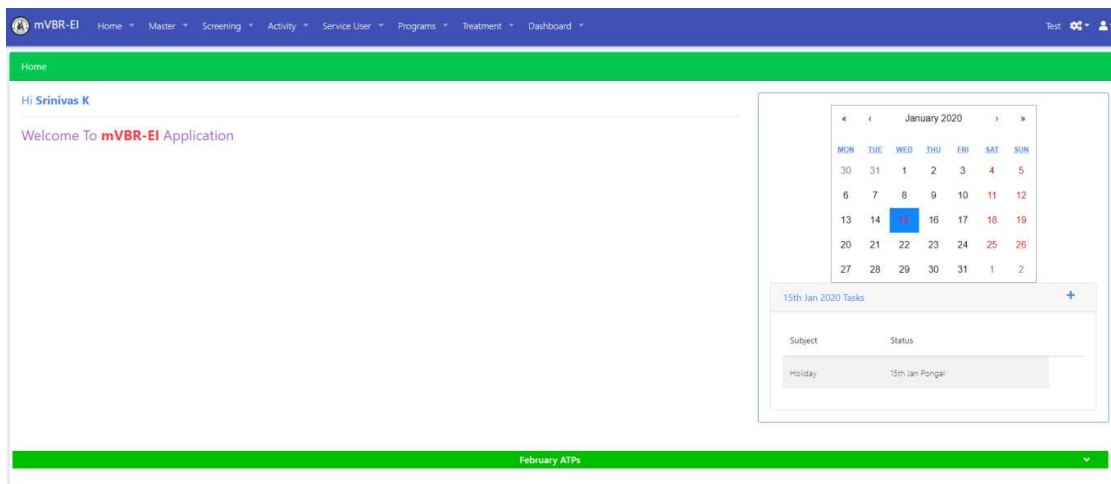

Provide user Name
Provide password

4.2. Home Page

Click here to open calendar

The screenshot displays a 'Task' form in the foreground, partially obscuring a calendar interface. The form contains the following fields:

- Date: 07 February, 2020
- Subject: [Empty]
- Objective: [Empty]
- Activity: choose option
- Sub Activity: choose option
- Status: choose option
- Patient: Block
- Panchayat: Village
- Remarks: [Empty]
- Comment: [Empty]

At the bottom of the form are 'CLOSE' and 'SAVE' buttons. In the background, a calendar for February 2020 is visible, with the 7th of February highlighted. A '+' icon in the bottom right corner of the calendar area is pointed to by an arrow.

Click here to add quick

4.3. Master

Master data is important to control the application and used as input in the different forms, there are two categories in masters

- **Platform Master :**
 - Setup Super User – Admin user (User_mstr)
 - Setup Menu - menu_mstr
 - Setup Profiles - profile_mstr
 - Setup Authorization - auth_mstr
 - Setup Authorization Access - auth_access_mstr
 - Setup Profile Assignment - profile_assignment_det

Available in Browse Data

- Setup Domain - domain_mstr
- Setup Division - division_mstr
- **Application Master :**
 - Setup Users - User_mstr
 - Upload Block - block_mstr
 - Upload Panchayat - panchayat_mstr
 - Upload Villages - village_mstr
 - List Master - list_mstr
 - Questions - question_mstr
 - Medical Chart - medicalchart_mstr
 - Holiday - holiday_mstr

Available in Browse Data

- Mobileaccess - mobileaccess_mstr
- Upload label master - label_mstr
- Upload Hierarchy - hierarchy_mstr
- Setup Country - country_mstr
- Setup State - state_mstr
- Page Access - pagedesign_mstr
- Form Master - assform_mstr
- Form Mapping - formmap_mstr
- Attendees- prgattendeet_dtl
- ATP- atp_mstr
- Tasks- task_mstr
- Task Sumamry- task_summary

15th Jan 2020 Tasks +

Block, Panchayat and Village master on a hierarchical relationship.
 Every Village is associated with Panchayat and every Panchayat is associated with the Block.

Every transaction record in the application is associated with Block, Panchayat and Village.

Every User is associated with the Block.

Block, Panchayat and village Masters are very import in the application configurations.

4.3.1. Block

- ✓ Goto Menu Master > Block
- ✓ Once Block is selected, a new page will open with Block details
- ✓ Using this page we can do
 - Add a new Block
 - Search & Select the Block to view
 - Modify an existing record
 - Delete a block

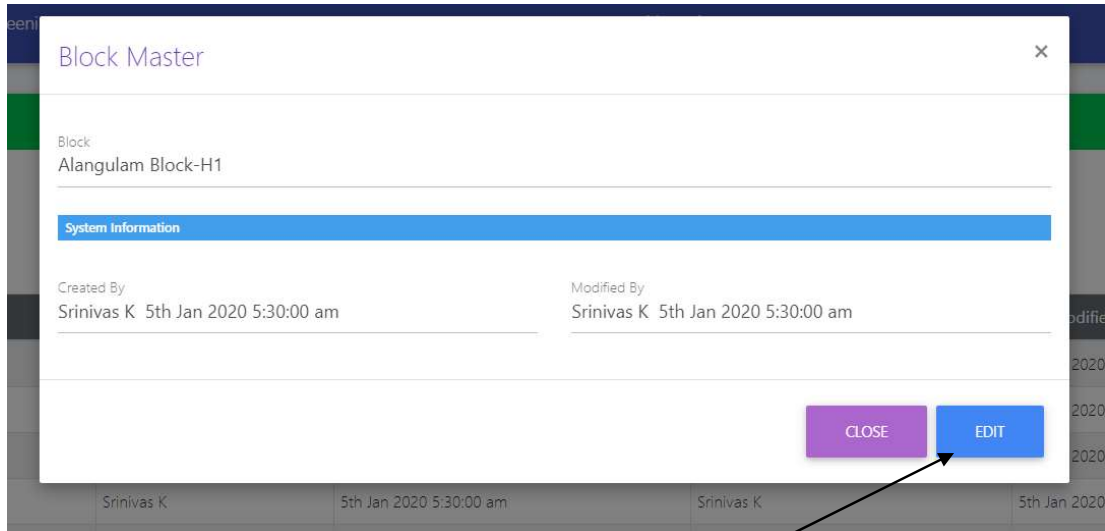

- Click on  icon
- Confirm deletion when asked
-

Click on this icon to Add

4.3.4. List

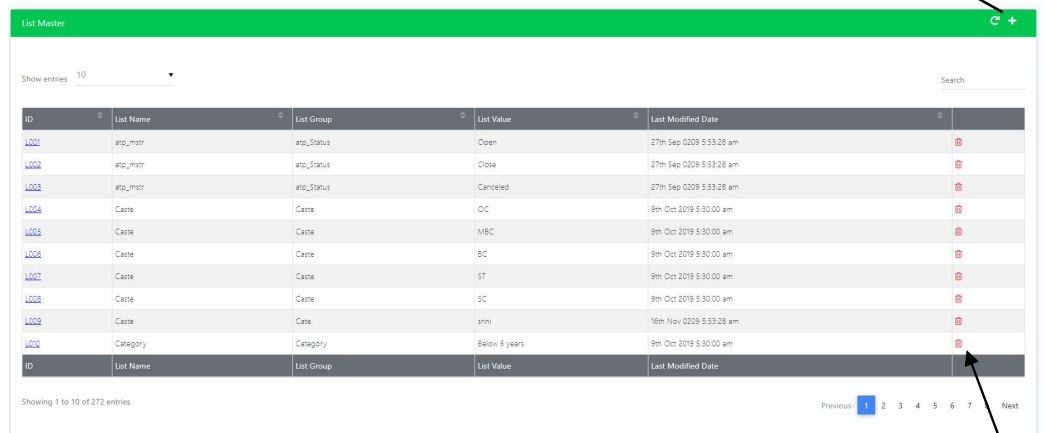

List Master is used to maintain all the dropdown List in the application. List Name, List Group and List Values should be unique. For every List Name and Group you can add List Values.

- ✓ Goto Menu **Master**>List
- ✓ Once List is selected, a new page will open with List details
- ✓ Using this page we can do
 - Add a new List
 - Search & Select the List to view
 - Modify an existing record
 - Delete a List

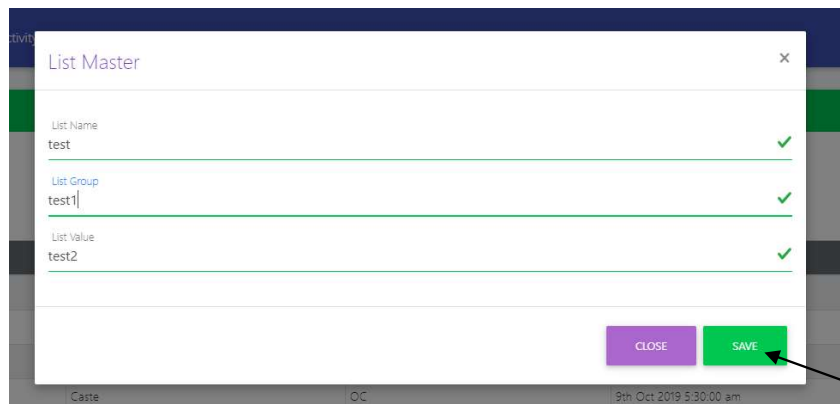

- Click on  icon
- Confirm deletion when asked

Click on this icon to Add New Record

The screenshot shows the 'List Master' application interface. At the top, there is a green header bar with a '+' icon. Below the header, there is a search bar and a dropdown menu for 'Show entries' set to '10'. The main area contains a table with the following columns: ID, List Name, List Group, List Value, and Last Modified Date. The table lists 10 entries, each with a red trash icon in the rightmost column. At the bottom of the table, there is a pagination bar with 'Showing 1 to 10 of 272 entries' and a 'Previous' button followed by page numbers 1 through 7, and a 'Next' button.

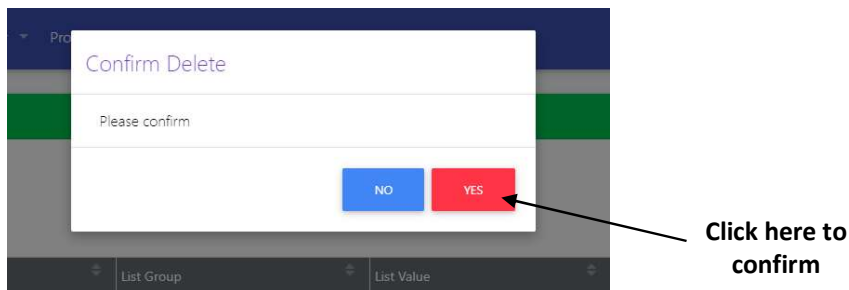

ID	List Name	List Group	List Value	Last Modified Date
L001	ato_mstr	ato_status	Open	27th Sep 0209 5:53:28 am
L002	ato_mstr	ato_status	Close	27th Sep 0209 5:53:28 am
L003	ato_mstr	ato_status	Cancelled	27th Sep 0209 5:53:28 am
L004	Caste	Caste	OC	9th Oct 2019 5:30:00 am
L005	Caste	Caste	MBC	9th Oct 2019 5:30:00 am
L006	Caste	Caste	BC	9th Oct 2019 5:30:00 am
L007	Caste	Caste	ST	9th Oct 2019 5:30:00 am
L008	Caste	Caste	SC	9th Oct 2019 5:30:00 am
L009	Caste	Caste	snri	16th Nov 0209 5:53:28 am
L010	Category	Category	Below 6 years	9th Oct 2019 5:30:00 am

The screenshot shows the 'List Master' form for adding a new record. The form has three input fields: 'List Name' with the value 'test', 'List Group' with the value 'test1', and 'List Value' with the value 'test2'. Each field has a green checkmark to its right, indicating that the input is valid. At the bottom right of the form, there are two buttons: a purple 'CLOSE' button and a green 'SAVE' button. The form is displayed over a background showing a partial view of the table from the previous screenshot.

4.3.5. Medical Chart

Medical Chart Master is used to maintain Treatments and Treatment Evaluation Score

Category: Should be below 6 years or Above 6 years

Disability: Can be selected from the drop down

Classification: Treatment & Evaluation depends on Classification. Please select the classification

Problem: This defines the Problems related to the classification

Goal: This defines the goal to be achieved for the Problem

Treatment: This defines the treatment to be given to achieve the Goal

Quadrant: This field to be filled only for OT Treatment Evaluation

Order: This field to be filled to display the Treatment Order in the Evaluation Form

Scale: This field to be filled to display the Evaluation Scale for the Treatment

GMFM : This field is checked if the evaluation is for GMFM Scale

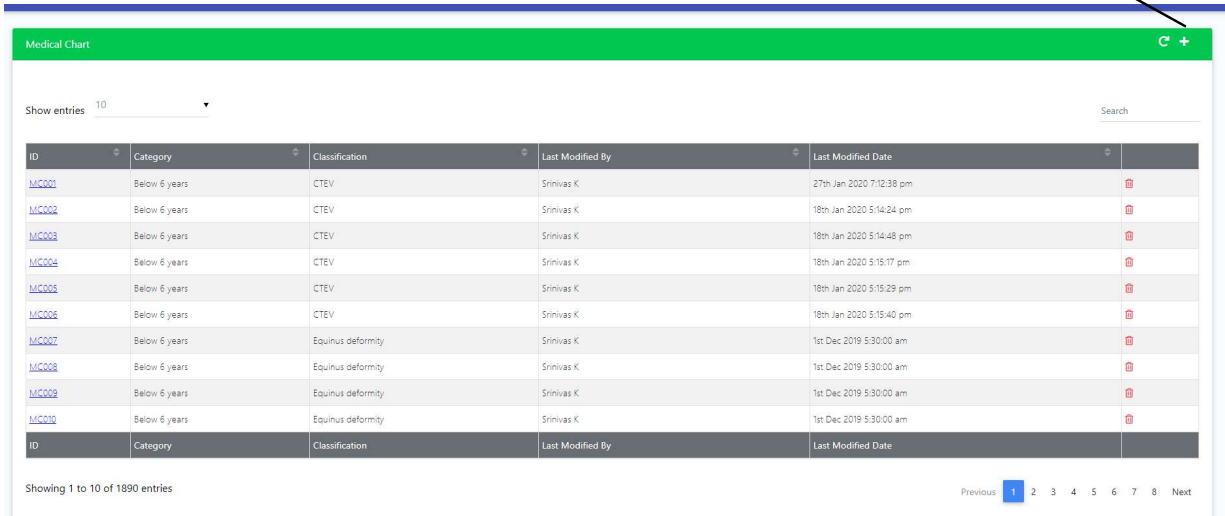

OT : This field is checked if the evaluation is for the OT treatment

- ✓ Goto Menu **Master**>Medical Chart
- ✓ Once Medical Chart is selected, a new page will open with Medical Chart details
- ✓ Using this page we can do
 - Add a new Medical Chart
 - Search & Select the Medical Chart to view
 - Modify an existing record
 - Delete a Medical Chart record

- Click on  icon
- Confirm deletion when asked

Click on this icon to Add New Record

4.3.7. Browse Data

This is an option to create/update the below masters which are defined one time while implementation. This is a general screen to maintain all the below masters.

- ✓ Go to Menu **Master**>Browse Data
- ✓ Once Browse Data is selected, a new List will be shown with table
 1. Page Design (pagedesign_mstr): To manage the Service User page which is dynamic.
 2. Assessment Form (assform_mstr): To Create and maintain the Assessment Forms & Feedback Forms
 3. Form map (formmap_mstr): To manage the Form mapped to the Problem and Treatments mapped to the Form and to the Profile who manages it and to the Block
 4. Mobile Access (mobileaccess_mstr): To manage the access on Mobile Pages.
 5. Domain Master (domain_mstr): To manage the Domain of the Org.

6. Division Master (division_mstr): Each Domain can have multiple divisions /departments for hierarchy.
 7. State (state_mstr): To maintain List of all the states in the country.
 8. Country (country_mstr) : To maintain List of Countries
 9. Label Master (label_mstr) : To maintain the Labels for the fields and display of fields in the list view.
- ✓ After selecting a table, the user is allowed to,
- Add a New record
 - Search & Select a record to view
 - Modify an existing record
 - Delete a Browse Data – selected table record
 - Click on  icon
 - Confirm deletion when asked

This form list downs all the masters. Select the Master which you want to create / modify.

Click here to modify

The screenshot shows the 'Browse Data' interface in the mVBR-EI application. The table lists the following master tables:

Table Name
pageDesign_mstr
assform_mstr
formmsg_mstr
mobileaccess_mstr
domain_mstr
division_mstr
state_mstr
country_mstr
label_mstr

The interface includes a search bar, a 'Show entries' dropdown set to 10, and pagination controls at the bottom showing 'Showing 1 to 9 of 9 entries' and 'Previous 1 Next'.

Click on this icon to Add New Record

The screenshot shows a table titled 'Browse Data' with a green header bar. In the top right corner of the header bar, there is a white '+' icon. Below the header, the table has columns for 'ID', 'Country', and 'Last Modified By'. Two rows are visible: one with ID 'C001' and Country 'INDIA', and another with ID 'C002' and Country 'CANADA'. Both rows have 'U001' in the 'Last Modified By' column. To the right of each row is a red trash can icon. At the bottom right of the table, there are 'Previous' and 'Next' navigation buttons. The text 'Showing 1 to 2 of 2 entries' is displayed at the bottom left of the table area.

Click here to delete

The screenshot shows a 'Browse Data Master' form window. The 'Country' field contains the text 'INDIA'. At the bottom right of the form, there are two buttons: a purple 'CLOSE' button and a blue 'EDIT' button. An arrow points from the 'EDIT' button to the text 'Click her to edit'.

Click her to edit

The screenshot shows the 'Browse Data Master' form window with the 'Country' field set to 'INDIA'. At the bottom right, the buttons are now a purple 'CLOSE' button and a green 'SAVE' button. An arrow points from the 'SAVE' button to the text 'Click here to save'.

Click here to save

The screenshot shows the 'Browse Data' table with a 'Confirm Delete' dialog box overlaid on top. The dialog box contains the text 'please confirm deleting' and two buttons: a blue 'CANCEL' button and a red 'DELETE' button. An arrow points from the 'DELETE' button to the text 'Click here to delete'.

Click here to delete

4.4.1. Screening

Screening for the children are record in this menu. Screening is done by CRW / Specialists. The Screening Header information will capture the Venue where screening is happening. Block/Panchayat/Village where the Screening is happening.

Capture the Children information with Assessor Results. Two Screening tools are there:

1. Trivandrum Developmental Screening chart
2. World Vision tool

IF the Child is Negative the record cannot be converted to the Service User.

If the Child is Positive the record can be converted to Service User

Specialists profile cannot convert the screening record only CRW's can convert the Screening.

- ✓ Create Screening
 - ✓ Enter the Children info with all personal information
 - ✓ If the screening tool is Trivandrum Developmental screening chart, update the result Positive/Negative/High Risk based on the chart
 - ✓ For World vision tool the result will be appeared on the screen based on the assessment score
 - ✓ Update Positive/Negative/High Risk
 - ✓ Convert to Service User

Click on this icon to Add New Record

View of the Service User Page in below screen.

Service User Page contains many Sections and fields to fill in. This page is dynamic and can be configured. Fields can be added /changed and labels can be changed. All these configurations can be done in Pagedesign master.

There are dependable fields in most of the sections where the field value and field entry depends on the pervious fields.

CRW/Specalists will fill in the Service User Form.

After the Service User is added. There is a General Assessment form which will be created automatically. This form has to be completed before submitting for approval. After completing the General Assessment the problem Identified and primary Impairment Identified in service user page have to be filled by the CRW before submit for Approval.

After the form is filled CRW Submits the service user for approval.

Specalists will validate and approve the Service User.

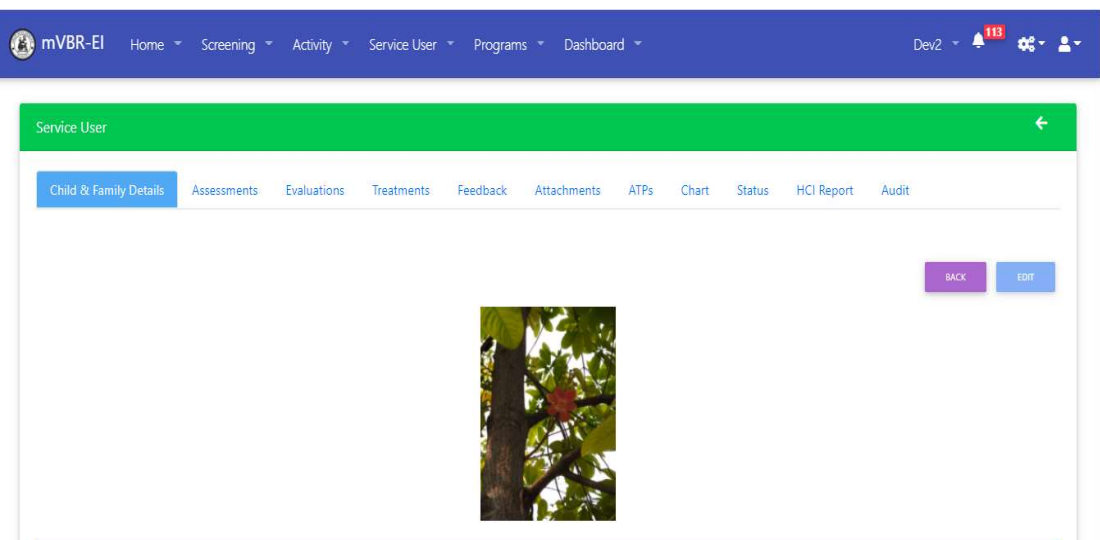

Service User Status keeps changing on every action on the Service User.

When the Service User Approval is triggered it will change the status of the service user and creates the Assessment Forms based on the Problems identified and assigns it to respective Specalists based on the Form Mapping Configuration. The feedback forms like Weefim,Parents feedback,COPM feedback are also assigned automatically when the specialist approved the service user.

In each assessment form there is a required evaluation part in which the specialist have to select the required evaluation to do it before creating treatment to know the stage of the child called Initial Evaluation.

Attachements and Service User images can be added to the Page.

Every Service User has Child&Family Details, Assessment Forms , Evaluations, Treatments and Feedback forms.

4.4.5.1. Assessment Forms

Assessments Forms for different Classifications are created automatically after service user approval and it can also be manually created and assigned to a specialist.

The Assessment forms will assign automatically based on the problem Identified and primary Impairment Identified in service user page.

An ATP is created and assigned to specialist to complete the activity.

All the fields in the forms are mandatory.

The below screen shows the list view of assessment for the service user.

SEND FOR APPROVE

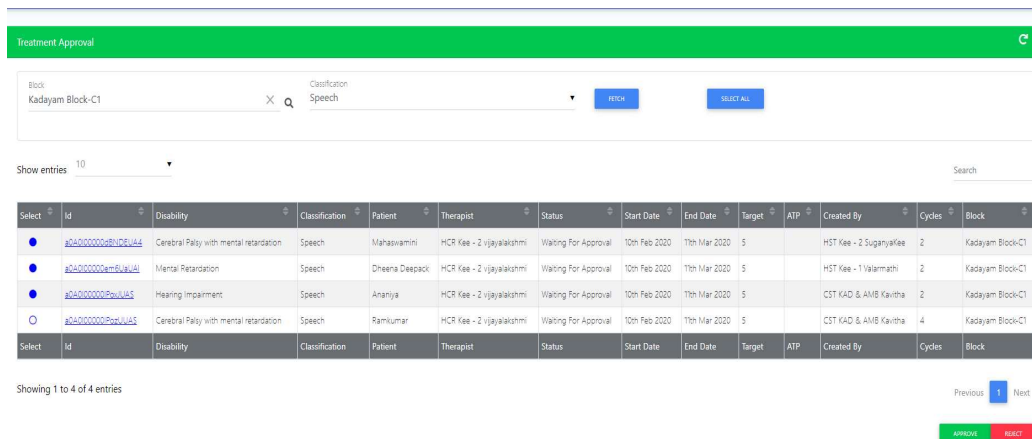

4.4.5.5. Treatment Approval

Once Treatment will be assigned and submitted for approval Treatment is approved by the Project Co-ordinator / Project Manager using the Treatment Approval Menu.

Treatments are selected and approved. If the list of Treatments are huge then you can use the filter by Block and Classifications to search the treatments to be approved.

Once Treatment is approved the system will automatically create ATP and assign Tasks based on the Frequency and day of the Treatment and assign it to the Therapist.

4.4.5.7. Multi Evaluation Assignment

The screenshot shows the mVBR-EI application interface. The top navigation bar includes 'Home', 'Master', 'Screening', 'Activity', 'Service User', 'Programs', 'Treatment', and 'Dashboard'. The 'Treatment' dropdown menu is open, showing options: 'Treatment Plans', 'Treatment Approvals', 'Multi Treatment Evaluation' (highlighted in yellow), and 'Multi Feedback'. Below the navigation, the 'Treatment Evaluation' section is visible, with the heading 'MULTIPLE TREATMENT EVALUATION CREATION'. It includes a 'Blocks' dropdown set to 'Shenkottai Block-H1', a 'Select Year' dropdown set to 'choose option', and a 'Month' dropdown set to 'choose option'.

Mutli evaluation screen is used when FTL / Project Co-ordinator want to create evaluations for a period for a group of Service user of a particular Block & Classification and assign it to a Therapist. Then they can use the below screen.

They can select the filters and select the service users and click on the “Create TE & Assign ATP” which will create Evaluation forms and Auto create ATP’s for the Therapist.

4.4.5.8. Feedback Forms

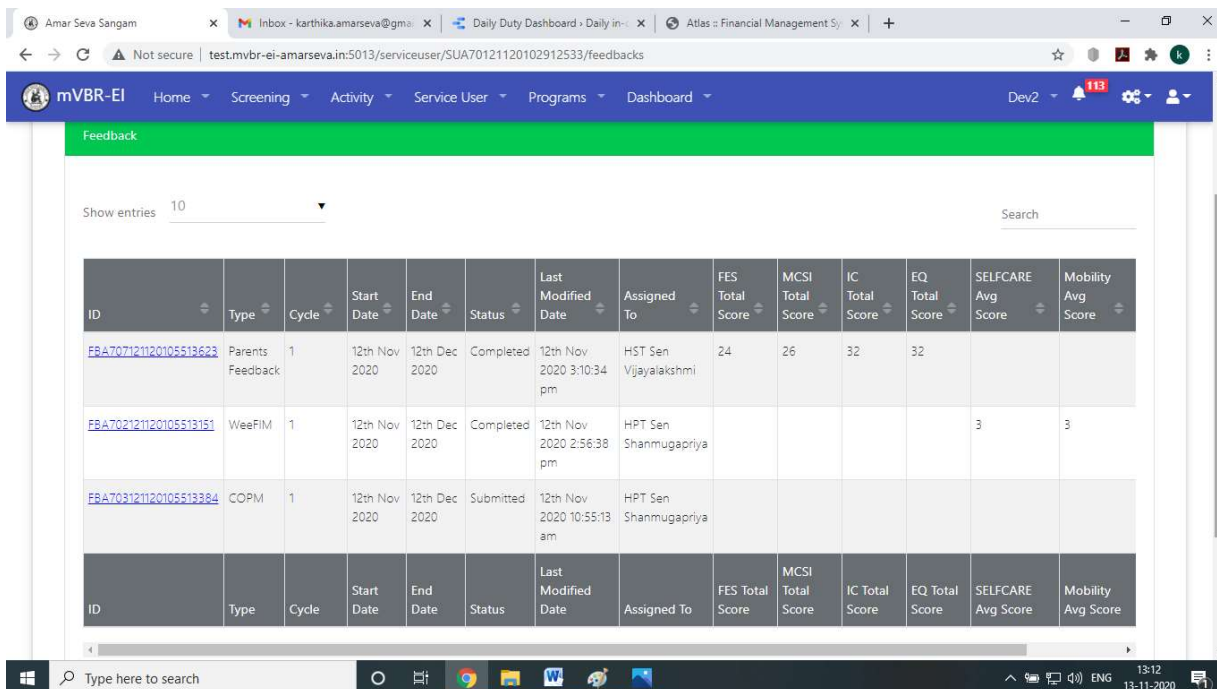

Feedback forms are of 3 types: COPM, Parents Feedback and Weefim. The feedback forms are dynamic and are defined in the Assform Master and Question Masters. **When the specialist approved the service user these three feedback forms will assign automatically.**

Click on the New Feedback Button to create a feedback and assign it to a Therapist.
You can select an existing feedback ID and view the feedback.

You can create a new Feedback by click on the button “New Feedback” Button

User Guide – EI –Application

Feedback Type: Parents Feedback

All the feedback questions has to be entered and is mandatory.

Feedback Taken From: Parents Feedback Date: 22-02-2020

Feedback Taken From

Canadian Occupational Therapy Performance Measure (COPM)

22-02-2020

STEP1: IDENTIFICATION OF OCCUPATIONAL PERFORMANCE ISSUES	STEP2: RATING IMPORTANCE
To identify occupational performance problems, concerns and issues, interview the client, asking about daily activities in self-care, productivity and leisure. Ask clients to identify daily activities which they want to do, need to do or are expected to do by encouraging them to think about a typical day. Then ask the client to identify which of these activities are difficult for them to do now to their satisfaction. Record these activity problems in Steps 1A, 1B, or 1C.	Using the scoring card provided, ask the client to rate, on a scale of 1 to 10, the importance of each activity. Place the ratings in the corresponding boxes in Steps 1A, 1B, or 1C.
STEP 1A: Self-care	
Personal Care (e.g. dressing, bathing, feeding, hygiene)	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>
_____	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>
_____	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>
Functional Mobility (e.g., transfers, indoor/ outdoor)	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>
_____	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>
_____	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>
_____	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>

STEP3 AND 4: SCORING INITIAL ASSESSMENT and REASSESSMENT

Conform with the client the 5 most important problems and record them below. Using the scoring cards, ask the client to rate each problem on performance and satisfaction then calculate the total scores. Total scores are calculated by adding together the performance of satisfaction scores for all problems and dividing by the number of problems. At reassessment the client scores each problem again for performance and satisfaction. Calculate the new scores and change score.

Initial Assessment		Reassessment		
OCCUPATIONAL PERFORMANCE PROBLEMS	PERFORMANCE1	SATISFACTION1	PERFORMANCE2	SATISFACTION2
_____	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>
_____	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>	<input style="width: 40px; height: 20px; border: 1px solid #ccc;" type="text"/>
