Enabling Inclusion

Are you looking for a cost effective, digital solution to launch or improve the quality of your child rehab program?

[The EI app](#) is a [globally recognized](#) early intervention and child rehab solution that has been developed by Amar Seva Sangam and adopted by governments and NGOs around the globe

The EI app has benefited thousands of children with disabilities and has proven to

- (1) Reduce Program Cost
- (2) Increase Rehab Staff Efficiency
- (3) Improve Child Development
- (4) Decrease Caregiver Strain
- (5) Improve Family Empowerment
- (6) Improve Program Engagement
- (7) Increase Child School Inclusion

The results of programs using the EI app have been [published](#) in prestigious journals and covered globally by the [media](#).

[The EI app](#) can be used by your rehab staff to provide individualized case management, goal setting, holistic intervention planning and tele-rehab for children with disabilities and their families.

[The EI app](#) has a comprehensive data collection and monitoring system for your management team to drive program change, improve outcomes for children & families and highlight your program to funders.

Watch a demo  of the EI app.

Please [contact us](#) for a special offer on launching the EI app in your organization including training, licensing and full support services. We are a non-profit organization and our fees are designed for cost recovery alone.

Let us work together, so that every child can reach his/her potential.
Looking forward to hear from you

S. Sankara Raman,
Hon. Secretary, Amar Seva Sangam
