OUTLOOK FOR 2018-19

ASSA's challenges during the year 2018-19 are many, particularly in the infrastructural front. We have a mammoth project to be cleared, viz., the +2 school building and completion of the third and fourth stages; this is estimated to cost Rs.1.8 cr. In addition, the construction of Foster Care Centre building, treated as a priority scheme, would need Rs.80 lakhs. A similar amount is needed to construct a building aimed at increasing the space for physiotherapy and attendant rehabilitation services in the Medical Testing Unit. Other pressing demands relate to establishment of Early Intervention Centres at Pattukottai and Kadayam for which the requisite plots of land have been / are being received as donations.

Besides the above -mentioned projects, a project to construct a building to enhance the space for the Disabled Youth Trainees for the skill development and higher education for both boys and girls, is on the anvil; we propose to adopt a Container Homes model with a view to minimising the cost of this project. The matter of construction of staff quarters has been engaging our attention for quite some time and this has now assumed urgency due to the augmentation of staff and increase in number of visits of quality staff to ASSA to render services who need accommodation. To meet this requirement we propose to build six to eight small residential units above the existing Life Care Centre; the new complex will be named "Sumathi Bavan".

OUTLOOK FOR 2018-19

We have offers of land to expand our services into the area of a Physiotherapy and Occupational Therapy College. The investment in land for this purpose which is statutorily prescribed as three acres would cause a heavy burden on ASSA's resources. Other areas which would necessitate infusion of sizeable funds are (a) putting up of class rooms for those who intend pursuing B.Ed. course, as required by the Tamil Nadu Higher Education Department and (b) construction of class rooms for running the courses for the mentally challenged children under aegis of the Rehabilitation Council of India.

We have to face several challenges in 2018-19 even after provision of many infrastructural facilities mentioned above. While on the one hand the expectations of the public for our quality services are ever rising, on the other, is the need for our preparedness to overcome the pressures and forge ahead. In such a scenario it is imperative that we have in place a well-planned strategy of judicious deployment of financial resources coupled with an effective fundraising mechanism. We are confident of achieving these twin objectives.

THANKS

Our achievements during the year 2017-18 were very much satisfying. Our activities have increased and the number of beneficiaries has grown multifold. We had completed 37 years of dedicated service to the differently able and rural poor with diligence and earnestness. But still there is a long way to go. All our achievements would not have been possible without the contributions, guidance and involvement of well wishers and volunteers. We record our thanks to Dr. M.S. Swaminathan, our Patron-in-Chief, for his guidance and also to the other patrons Shri N. Vaghul and Shri S.V. Mony. We also thank our Executive Committee members, Advisory Board members and General Body members. Words are inadequate to express our thanks to all the Volunteers who are helping the Sangam from behind the curtain and adding glory to our Sangam. Our special thanks to Smt. Sulochana Krishnamoorthy of Handicare International, Canada for her constant endeavour to raise funds for our continued developmental activities.
